PROTRUDING TEETH CHARACTER SIGN

Almost Invariably Women Thus
Equipped Mate Early and
Happily.

"She was a glib toothed licentious woman,"—
Chance.

"Women with large mouths and pro-
truding front teeth invariably marry,"
declared Dr. Jacob E. Wells, a dentist of
Fargo, N. D., before he left for his
home last night after attending the Na-
tional Dentists' Convention recently held
here. "This fact was recognized away
back in the days of Chance. He de-
scribed the wife of Smith, in his East-
bury Tales, as a "Glib toothed licentious
woman," meaning that her teeth pro-
truded in front. The fact that she mar-
ried five times substantiates his state-
ment.

"You will also find that men with long,
white, rather narrow teeth are very
strongly inclined to marry. Just watch
this in your everyday life and you will
find that it works out. Such men make
excellent husbands, and are, as a general
rule, good providers for their families.
"Take this as a working rule and you
will find that it is absolutely reliable.
Women with projecting front teeth or
those with the pink tint in them and men
with the dental equipment I have de-
scribed have a strong liking for each
other. They come together as naturally
as positive and negative steel. Notice
married couples of this type and you will
find that they get along excellently.

"Men who have broad, white teeth are
not fitted for the marriage state. They
are too stern and dictatorial in their
inclinations. It is such men as these
who make our great capitalists of indus-
try. They have a spirit of contempt for
women and are not good lovers.

"I am preparing a work on this sub-
ject. I hope it will do much to settle
the marriage difficulties of this coun-
try."

AWAIT OUTCOME OF BEAUMONT TRIAL

Man from Whom Girl Was Taken
Here Is in Trouble in
San Francisco.

Washington police officials are awaiting
with interest the outcome of the trial of
S. H. Beaumont, self-styled a wealthy
merchant of Alaska, who is under ar-
rest in San Francisco for violation of
the white slave law, according to reports
received at the Department of Justice.

Officials here believe Beaumont is in-
nocent of wrongdoing, and are confident he
will establish his innocence when ar-
raigned. Beaumont, who is about sixty
years old, impressed the local authorities
as not misrepresenting himself.

In New York City several weeks ago,
Beaumont, advertising for a "nurse girl,"
He wanted the girl to accompany him to
Alaska to live with him and his wife,
Elizabeth Arnault, fourteen years old, of
Brooklyn, answered the advertisement,
and was given permission by a married
sister, with whom she was living, to go
to Alaska.

Beaumont and the child came to
Washington, the man saying he has some
business to transact with the govern-
ment concerning title to some of his
Alaska property. While in this city
Elizabeth Arnault wrote to her sister,
asking permission to return home. The
police here were asked to detain the
child and see her started on her way to
New York.

Beaumont was closely questioned and
officials also talked with the child. The
police were convinced that the story the
man told was true. Beaumont again ad-
vertised, and a sixteen-year-old girl, liv-
ing in Baltimore, consented to go with
him to Alaska. In San Francisco the
girl charged the man with drinking her
and ill-treating her. The man was ar-
rested.

ISSUE NEW BAGGAGE CHECKS.

Pennsylvania Railroad Puts Unique
Tags in Service.

A new baggage check, embodying a
number of unique features which are
expected to lessen the number of errors
and complaints, has just been placed in
service by the Pennsylvania Railroad.

The duplicate portion of the new check
is provided with spaces in which are
printed a number of the principal "bad
order" conditions in which baggage is
frequently received for checking. A
check, on being delivered to a passenger,
will be perforated to show whether the
piece of baggage is a trunk, suit case,
or valise, fiber case, or tool chest. An-
other perforation will show the condi-
tion in which it was received, whether
the bottom, side, top, or end is broken,
lock or handle broken, hinges loose, old,
or worn, or whether the piece of baggage
is open. In this way the duplicate check
will contain a full description of the
condition of the baggage when received for
shipment.

The number on the tag portion of the
check is placed at the bottom, while on
the duplicate portion it is printed at the
top, so that the two can be readily
matched when making delivery of bag-
gage.

It is expected that with the use of this
new form of check the liability of mis-
matching numbers will be minimized, the
delivery of baggage expedited, and the
number of claims greatly reduced.

been appointed military attaché at the
American Legation at Havana, and will
